

Chandan Kumar

Java Developer | B.Tech (CSE)

Contact

Phone: +91 7033501524

Email: ku.chandan274@gmail.com

GitHub: github.com/ChandanKumar274

Skills

Languages
Java, Java 8

Backend
Spring Boot, Spring MVC, Spring Data JPA, Spring Security, RESTful Web Services, JWT, Role-Based Access Control

Database
SQL, MySQL, PostgreSQL, SQL Server, JDBC, Hibernate (ORM), Liquibase

Frontend
HTML, CSS, JavaScript, JSP, Servlets, React.js

Cloud & Architecture
AWS, Microservices, Monolithic

Tools
Git, GitHub, Maven, Docker, JIRA, Postman, IntelliJ IDEA, VS Code, SLF4J/Logback

Core Concepts
Java Collections, OOP, Exception Handling, API Security, Agile/Scrum

Education

Patel College of Science and Technology
B.Tech in Computer Science Engineering
2022 - 2026 | CGPA: 7.64

Higher Secondary (12th)
I.G.S.N.S College, Kuchaikot, Gopalganj
2019 - 2021 | 65%

Secondary (10th)
M.C.H.S, Uchhakagaon, Gopalganj
2018 - 2019 | 64.8%

Profile

Java Developer with almost 1 year of experience in building scalable web applications and RESTful APIs using Java, Spring Boot, Hibernate, and MySQL. Strong expertise in microservices architecture, secure authentication (JWT, Spring Security), performance optimization, and Agile methodologies.

Experience

Aanand Metal
Freelance

Freelance Full Stack Developer

- Developed **ITRIK**, a complete E-Commerce platform for Aanand Metal with a Spring Boot backend, delivering 4 core features: authentication, product catalog, order management, and a responsive UI.
- Implemented secure user authentication (registration, login, session handling) in the Spring Boot backend, with hashed passwords.
- Built a product catalog with categories and product detail pages, managed through an admin interface.
- Designed order management with cart, checkout, and order status handling for smooth end-to-end purchasing.
- Integrated a responsive frontend (HTML, CSS, JavaScript) so the store works across mobile, tablet, and desktop.
- Worked directly with the client to gather requirements and deliver the project end to end.

AVEROFT
Aug 2025 - Mar 2026

Java Developer

Project: Hub & Spoke - Healthcare Management System

Java, Spring Boot, Hibernate, REST API, PostgreSQL, Spring Security, JWT, Liquibase

- Built 7 core modules of a large-scale Healthcare Management System (Patient Registration, Appointments, EHR, e-Prescriptions, Pharmacy, Diagnostics, Inventory) using Java, Spring Boot, Hibernate, and PostgreSQL.
- Developed a centralized EHR system storing patient history, diagnoses, lab reports, and prescriptions, accessible across multiple healthcare centers.
- Implemented real-time appointment booking, consultation workflows, lab test processing, and pharmacy inventory across hospital units (Hub & Spoke model).
- Secured healthcare data with Spring Security + JWT, implementing role-based access control for 5 user roles (Doctors, Nurses, Pharmacists, Lab Technicians, Admins).
- Integrated modules through RESTful APIs for smooth data flow and adherence to government healthcare compliance standards.

Optifyx Technology
Jan 2025 - Feb 2025

Java Programming Intern | Remote, Delhi

- **Core Java:** Developed and tested modular Java modules, applying OOP principles and design patterns.
- **Backend & Database:** Assisted in developing backend APIs and database operations using JDBC and MySQL for secure data handling.
- **Code Quality:** Participated in code reviews, resolved logic bugs, and wrote clean, maintainable, well-documented code.
- **Version Control:** Collaborated with senior engineers using Git & GitHub for feature branches and pull requests.

Key Technologies: Java, OOP, JDBC, MySQL, Git, REST APIs

Oasis Infobyte
Dec 2024 (1 month)

Web Development and Designing Intern

- Completed a 1-month Web Development and Designing internship, applying newly learned concepts through hands-on assigned work.
- Worked on web development and design tasks within the internship program, building a stronger foundation in front-end fundamentals.
